

Our priority is to ensure the safety of our visitors, exhibitors and staff. We will use our experience to create a show that covers the restrictions that might still be in place during each event.

Wherever possible, we'll relax our measures in line with Government guidelines.

Below is a series of measures we have planned, should we need to implement them. The final precautions taken will depend on the government advice. We will be updating our measures in line with the latest recommendations.

SOCIAL DISTANCING MEASURES

We have taken all reasonable steps to maintain a safe and social distance within the show. The number of visitors within the show at one time will be closely monitored and restricted due to the social distancing.

Show opening times will be extended to help decrease the volume of visitors within the show at one time.

Aisles will be wider to accommodate social distancing.

TRAINING, CLEANING & PERSONAL PROTECTION

Our team will be briefed and trained in our Covid prevention procedure.

There will be increased regular cleaning, theatres and workshops will be disinfected between each session.

Hand sanitiser stations will be available throughout the show, the location for these station will be visible on the floorplan. We request you use them when you enter the show and throughout your day.

Face masks are currently compulsory (this may change closer to the event). We recommend that you bring your own, although we will have a limited number for sale on-site.

COMMUNICATION

Our pre-show email communication will provide the following detailed information:

- Health and Hygiene Guidelines
- Detailed floorplan highlighting the location of the hand washing facilities and any one way systems that may be in place.
- Helpful tips including quieter periods to visit the show.

TECHNOLOGY

We advise visitors to use card payments where possible to avoid the handling of cash.

Tickets for the event must be downloaded on your smart phone – we will not accept any printed tickets.

A show plan will be available online, this can be downloaded at the show by scanning one of the many QR codes located around the show.

HEALTH CHECKS

Our staff will complete a mandatory daily temperature check to ensure they are symptom free and fit to work.

We ask that if you or any accompanying persons are showing any symptoms of Covid-19 that you don't attend the show.
